CAREER EDGE: A series of workshops designed to help adults prepare for the job market
Whether you're unemployed, underemployed or preparing to make a career transition, starting the job search process can be an intimidating experience. This four-part series is designed to give participants the skills and confidence needed to get – and to keep – a job. Even better, those who attend all four workshops will be invited to attend one of the Chamber’s future job fairs.

Laying the Foundation
Before you begin your job search, it is necessary to understand the importance of basics like effective communication, business etiquette, the correct attitude, planning and goal setting.

Job Search Preparation
When looking for a new job, there are important steps that you must take to prepare for your new career opportunity. Participants will leave with the tools needed to complete a job application, develop a winning resume, write a targeted cover letter, prepare a portfolio, etc.

Interview Preparation
You have the skills and credentials but the idea of interviewing for a job can be overwhelming. What types of questions will they ask? Will you remember the “right” things to say?

Keeping a Job
Once you have the job, what’s next? This workshop will highlight a variety of qualities and characteristics that employers want to see in their staff.

Dates will be added throughout the year. For more information, visit flintandgenesee.org/careeredge, call 810-600-4067 or email Debbie Garrison at dgarrison@flintandgenesee.org.
